International Department: Networking Event with China's Largest Real Estate Brokerage Company

On October 24th, Mitsui Fudosan Realty hosted 74 top salesmen and saleswomen of China's largest real estate brokerage company from the city of Beijing and its surroundings, leading a market tour and holding a networking event.

Since 2010, Mitsui Fudosan Realty has been allied with the Chinese brokerage company, exchanging information and deepening a friendship. Now that the Chinese brokerage company established an international division last year and appointed a personnel responsible for Japan this year, we look forward to doing business together from now on.

Mitsui organized a market tour of the central Tokyo and its bay area in the morning, and a Q&A session about the real estate brokerage business in the afternoon. The Chinese company's salesmen and saleswomen showed great interest in the historical development of our brokerage business and asked numerous questions. A dinner party was also held in the evening to strengthen our relationship. Through this networking event, we got a real feeling that personnel development in China's real estate brokerage industry underwent a steady evolution.
